2012 Winter Forage Conference
Margaret Kenny
 3599 Indian Oak Road
 Crewe, VA 23930

Keynote Speaker Kathy Voth

This year's keynote speaker is Kathy Voth of *Livestock for Landscapes* a national known expert on using livestock as a land management tool. Using decades of university research and practical hands-on experience, she invented a process for teaching cows to eat weeds and other non-traditional forages. Ms. Voth makes use of livestock's natural behavior as an inexpensive alternative for managing weeds and other vegetation in pastures and other landscapes.

Participants will also hear from two VA Tech Extension Specialist Scott Hagood, Professor of Weed Science and Chris Teutsch, Assoc Professor of Forage Management. Dr. Hagood will provide famers with knowledge of the practical science behind developing a weed management plan. Dr. Teutsch will help farmers understand the relationships between soils and weeds, with insights on how to use fertility to shift the balance in to favor of quality forages.

Please visit the VFGC web site (<http://vaforages.org>) for additional details and registration information.

The U.S. Department of Agriculture Natural Resources Conservation Service is also a sponsor.
